

INF-VW86w

Outdoor digital signage totem with 86" display

DESCRIPTION

86" outdoor digital signage totem withstands up to 60°C. The screen is designed for use in direct sunlight. A normal LCD screen if exposed to high temperatures will not function, causing dark spots to appear that will degrade the screen over time. Conversely, the LCD panels used in high brightness screens are designed to withstand extreme temperatures up to 60°C without blackening.

CHARACTERISTICS

- High brightness sunlight readable screen (2500 nits)
- Galvanised and painted metal frame with IP65 protection rating
- Vandal-proof AR glass
- Designed for 24/7 operation
- Integrated mediaplayer
- Unique cooling system allows the display to operate in direct sunlight
- Integrated heater, the LCD display can operate at -20

DIMENSIONS

Height 2600 mm Width 1290 mm Depth 220 mm
