

INF-43 portable

Portable outdoor Digital Signage display with a 43-inch LCD screen

DESCRIPTION

43-inch LCD Digital Signage outdoor display with two convenient wheels for easy moving and positioning wherever needed. The screen is designed for use in direct sunlight.

CHARACTERISTICS

- Aluminum alloy frame with IP65 waterproof metal casing to keep the screen and internal components safe even in extreme weather conditions
- High-brightness screen, 1500 nits, to make images readable even in direct sunlight
- Foldable design with two large stable wheels that make the display available anywhere
- Special lock allows for easy and secure maintenance
- Up to 30 hours of battery operation
- Plug and play configuration (Cloud-XDS): supports (MPG, AVI, MP4, RM, RMVB, TS), (MP3, WMA), (JPG, GIF, BMP, PNG)
- The LCD panel displays real-time battery level
